Professional Summary

Analytical and tech-driven biochemist with strong interest in data and technology. Skilled in Python, SQL, Excel and data visualization with experience in building dashboards, databases and machine learning models. I am currently undertaking AI Engineering training with the GenAI Fellowship. I am passionate about leveraging data and technology to drive efficiency and growth within corporate environments

I've trained with Tech4Dev, and am currently taking a data science course at WorldQuant University. I am eager to grow in tech and contribute to innovative solutions.

Core Skills

Technical: Python, SQL, Pandas, Excel, Tableau, Excel, Power BI, FastAPI, Jupyter Notebook

Data and Business Analytics: Data analysis, data cleaning, data visualization, exploratory data analysis (EDA), reporting dashboards, model building

Soft Skills: Communication, teamwork, leadership, adaptability, problem-solving, project management

Professional Experience

AI Engineering Fellow -

PublicaAI | Aug 2025– Jan 2026

Undergoing a 6-month training program in AI Engineering

- Building machine learning models
- Managing backend databases using SQL and FastAPI

Data Science Fellow

Tech4Dev – Women Techsters Fellowship | Aug 2022– Feb 2023

- Completed a 6-month intensive training program in data science and analytics.
- Gained hands-on experience in Python, SQL, data wrangling, and visualization.
- Built and presented mini-projects involving real-life data to solve practical problems.
- Adapted to diverse project teams and remote tools for collaborative learning.

Data Analyst Intern

Genomac Institute | Jun 2022 – Mar 2023

- Analyzed large datasets to identify trends and patterns.
- Contributed to the development of a public health AMR data dashboard.
- Applied strategic thinking to data interpretation and reporting.

Leadership & Volunteer Experience

Volunteer Programs Manager

LeadGreen Fellowship | Mar 2025 – Aug 2025

- Lead planning and coordination of sustainability programs across institutions.
- Manage communication, reporting, and digital support.
- Work with partners and fellows to deliver impact-driven programs.

Volunteer Creative Trainer

LiteArt Creatives | Oct 2023 – Aug 2025

- Train individuals in digital creative tools like graphic design.
- Mentor learners through hands-on creative sessions.
- Promote tech and creativity in the community.

Programs Coordinator & Manager

Genomac Hub | Oct 2023 – Oct 2024

- Organized educational and tech programs across campuses.
- Managed logistics, speaker coordination, and outreach.
- Led teams to successfully deliver high-impact events.

Education

B. Tech. Biochemistry

Ladoke Akintola University of Technology (LAUTECH), Ogbomoso, Oyo State

Graduation Date: August 2023

- Graduated with Second Class Upper Division

National Youth Service Corps (NYSC)

Godly Heritage College, Abeokuta, Ogun State (April 2024 – March 2025)

- Taught Basic Science and Chemistry to senior students.
- Created interactive lessons and practical science experiments.
- Mentored students on STEM careers and scientific research.

Certifications

Data Science Certification – Simplilearn

Women Techsters Fellowship – Tech4Dev (Focus: Data Science)

Professional Development

Currently enrolled in the Data Science Program – WorldQuant University

- Learning advanced topics like machine learning and data engineering.
- Working on building tech solutions and tools that solve real-life problems.
